Answer & Explanations

1. Ans: b

The cause of revolution cannot be deduced from the given statement. So, I does not follow. However, the statement mentions that Industrial Revolution brought about modern age. This means that revolution overhauls society. So, II follows.

2. Ans: a

Clearly, the statement stresses the need to provide good teachers and equipment to schools. So I follows. However, the fact that education system in India is progressing with regard to schools does not imply that no more schools should be opened. So, II does not follow.

3. Ans: b

The workers in the organized sector are not being talked about in the statement. So, I does not follow. It is mentioned that some workers in the unorganized sector are engaged in sundry jobs. This means that they have fixed income. So II follows.

4. Ans: e

The statement clearly implies that it is easier to say than to do something and what people say is different from what they do. So, both I and II follow.

5. Ans: b

This information will be helpful when the accident is fatal. So only II follows.
