

GE PAPER ON 2ND FEBRUARY,2008 AT MUMBAI

About GE test for .net software Engg.

Hi friends I took the GE test on 2 Feb 2008 at Mumbai

The test time was 8:30 but start at 9:20 but atleast be on time

The test is for .NET, JAVA and testing (separate for each category)

The test consist of 3 sections

1) general aptitude

2)technical aptitude

3)yourtechnology section (ie. .NET or JAVA depend upon for who u applied for)

for 1)general aptitude 60 question

for 2)technical aptitude 60 question

for 3) technology section 30 question

general aptitude section was beat lengthy and critical (most of from R S aggarawal) do it last

technical aptitude was easy cover up all the basic knowledge (engineering concept) like OS concepts, database, network etc.

technology section was very easy if u r much familiar with it

No negative marking for the answers

Total 150 question 90 min. time, after test they release us and told that they inform us by email if anybody selected

If any assistance please feel free to email me simplyavinash@hotmail.com
