

## Latest IBM Interview Experience

Hi Friends,

My name is Seethu Kumar. IBM had visited our college on Nov 18th 2014 for campus recruitment. First of all, I would like to say that I'm very much we proud to be an IBMer.

### i. Round 1

#### Aptitude

It was quite medium with 2minutes 15 seconds for each question with 30seconds break after each question. Among those who got 16 cleared aptitude round. Once you cleared this round your 90% selected.

### Round 2

#### Communication Round

The second round was communication round for just checking your fluency in English. Among 16- 11 were selected me also.

### Round 3

Then final round was HR round. The HR officials were so friendly and they take too much time to interview this round. If you enter this round you are 95% selected. Finally among 12 at last 10 were selected. I'm one among them.

My advice is that be confident. You can easily crack.
