

## POLARIS PAPER ON 18th NOVEMBER AT GURGAON

Hi All,

I went Polaris Lab Gurgaon on 18 nov for a Offcampus (1.5 years to 5 years)

for c/Unix

as i entered thier arena it was a feeling in its own to be there so well maintained and

Good infrastructure on first sight you would be prody coz its Local!! company a indian MNC

I reached there at 9:20 am had to wait for 10 mints then they called up to us in a training

type of room. They gave use two papers as it was mainly C/unix opening so quite obviously it

was from c and Unix 31 questions combinedly 50% cut-off no negative marking so please attend

All questions they are friendly people will help you for every query.

Start your test you have lots of time behind you 50 mints or 1 hour dont worry because paper is not so hard or lengthy

c Paper

16 questions

I am giving you question those i remembered i am sorry for that hope it will help you all.

1.one question related to pass by value and pass by pointer in a function and print the change take place with passed

value in the main function

2. pointer to function

3. pointer to array

4. macro (#define)

5. static data type scope

6. switch case

7. file handling

Unix

15 questions

1.grep command

2.rm command

3. sed find combine

4. grep combined with find command

6. awk command

7. pid value

8. one question on script writing using 'lt' command

Sorry that's all I remembered but one thing to remember if you stuck somewhere keep ticking c or b because lots of questions are having c or b options as right choice

Then there would be a tech interview:

For my interview there was a so calm and descent lady

She started my interview with my resume

Tell me about yourself

Then some question from my previous job as I was for experienced opening. Then she asked me how much I will rate myself

Out of 10 I gave 8 out of 10 Hahahahaha:))

she started with File handling about static data type extern in data structure she asked me about trees what is a binary tree

how to insert data in a binary tree at the end

That's all then she told me that I am ok from her side

please wait outside

then after few mins one lady from Hr came and told me to leave and they will get back to me later I don't know

If I was selected or not I'm waiting for their reply till now hope it will be good if they reply

Thanks that's all have great future for you all
