KPIT PAPER ON 1st MARCH 2008

Hi Everyone. I am Rahul A Pardeshi frm Rajarambapu Institute of Technology, Sangli. B4 starting i want to thank GOD ,my parents and friends. The Aptitude started at 10.00am. Students from 9 diff colleges appeared for the test.

The aptitude results were outtill 12.30. The first name announced was mine. Was very happy but the pressure was building on.

They shortlisted 76 out of 550(near about)

After the aptitude they had PPT.

G.D was cancelled as only 76 of us were there.

After G.D , there was T.I & P.I.

They need students who are Strong Technically and good at Soft Skills.

One advice is that be confident and keep smiling the day throughout.

Don't lie anywhere throughout the process, be simple.

Aptitude test pattern:
test is of 35 marks for 30 minutes.
no sectional cutoff.

There's 1/4 negative marking. So keep in mind for every right answer you get +1 mark and for every wrong answer -1.25 marks.

There are two sections
1)Qantititive (20 Ques)
2)English. (15 Ques)
In quantitative section there are 20 questions.
they are really time consuming.

Don't try to solve all the questions .

Solve English first, try to solve all que in English, they are easy.

While solving don't guess about any question solve only those question which you are confident about.

Out of 20 ques inquantieven if you solve 10 right questions that would be enough.

Topics to work on:
1. Permutation and Combination.
2.Profit and Loss.
3.Probability.
4.Time ,Distance and Speed.
5.Percentages.
6.Pipes and Cirstens.
7.Allegation and Mixture.
8.Averages.

ENGLISH TEST:
Solve english section first. there are 15questions on sentence correction. but remember that there is negative marking of 0.25.

INTERVIEW:
There's are two separate interviews.
1)Technical
2)HR.

Technical:
My interview was for about25 minutes They are really cool persons .Just be confident and keep a smile.

ME : Please, may i come in Sir ?
INT: Yes Rahul, Please come in.(I was shocked, he knew my name already. Then i saw that he had my resume in his hands, which they collected during PPT.)
