

KPIT PAPER ON 12th FEBRUARY 2008

Hi everybody, I am sarita Agrawal . I had appeared for KPIT CUMMINS test at 12 feb 2008.

Aptitude test pattern:

test is of 35 marks for 30 minutes.

cut off is 17 marks

no sectional cutoff

There are two sections

1)quantitative

2)english.

In **quantitative section** there are 20 question.

they are really time consuming.I solved only 10 questions.

while solving don't guess about any question solve only those question which

1.There is a ladder resting against a wall of height 8m with a top of ladder coinciding with the of wall. when the foot of ladder is moved 2m away from the wall; the top of ladder slips down & coincides with the foot of the wall .find the length of ladders

Ans:15m

2.50 man can build a wall of 40m height 30m breadth 50m width in 20 days. then in how many days 40 man can build a wall of 30m,40m,60m? Be fast while solving.

3.find the minimum value of g from following option of x.

if $g = \max(5-x, x-2)$

1)3.5 2)4 3)4.5 4)2.

ans. 3.5

4.there are three pipes A,B,C A can fill a tank in 15hours, B can fill a tank 20hours,c can empty a tank in 25 hours.a man can start a tap A at 3 o'clock B at 4 o'clock & C at 5o'clock.find at what time tank can full? values aer not correct.

5.abcd=1 then minimum possibility of value of $(1+a)(1+b)(1+c)(1+d)$?

ans. 16

ENGLISH TEST:

Its easy ,solve english section first. there are 15questions on sentence correction. but remember that there is negative marking of 0.25.

INTERVIEW:

there are two separate interview

1)technical

2)HR.

Technical:

ther were 4pannels for tacking TR.my interview was about more than half hour.

They are rally cool persons.

he: how was the day?

i: too long sir.(he shocked & asked me why)

i: because i am very much enthusiastic for my interview.(he impressed)

he: explain about project my project is on php&mysql. i explaind all things.he asked some questions on database of my project.

he: last year subject be prepare with all subjects they will ask basics of all subject

he: favorite subject.

i : data structure he asked program for tower of honoi& also covered all the concepts of data stucture.be prepare with ur favorite subject.

he: how u rate urself in oops from 0 to 10?

i :seven but i want to be 10.(he impressed) he asked some questions on DBMS, OS,Software Engineering, they asked all process model.

at last he told me to wait outside. within 2 min result come out.i selected for HR.

HR:

I am the first person for HR.

the person was very cool.

he test only confidence & communication skill.

he: tell me about urself?

i : told.

he: what r ur hobbies?

i :making new friends. be prepare with ur hobbies with example.i told i made some friends in travelling.

he: family background

i: told.

he: do u have any question?

i : yes sir i have a question i have one more year to complete this course.what do u expect from me to do in this one year to fit in your organization
