Rest API

## PROFESSIONAL EXPERIENCE

### UI Designer

ANK Hub Technologies | July 2022 - Aug 2022.

- Created UI designs for web and mobile applications under the guidance of senior designers.
- Identified design challenges and proposed creative solutions to improve usability and user satisfaction.

### Java Developer

Vigo Technologies | Oct 2023 - Sep 2024

- Designed and implemented Restful APIs using Java Spring Boot framework.
- Developed responsive user interfaces using HTML5, CSS3
- Created and maintained database schemas, tables, and relationships.

## PROJECTS

### Auto Resale

- Designed and implemented RESTful endpoints to perform CRUD (Create, Read, Update, Delete) operations on database entities
- Defined entity classes representing database tables and established relationships between entities using JPA annotations.

### Dictify

- Optimized for fast loading and smooth interactions.
- To provide users with the ability to search for word definitions, synonyms, and examples.
- Responsive design for mobile and desktop compatibility.
